

Collaboration, Mentorship & Education for Military Nurse Scientists

TRISERVICE NURSING RESEARCH PROGRAM

ABOUT

TSNRP funds evidence-based solutions to complex healthcare problems and strengthens readiness for American warfighters and their families.

It is the only program to fund Army, Navy, and Air Force nurses who improve clinical outcomes via scientific research and Evidence-Based Practice (EBP) projects relevant for military operations.

BENEFITS FOR MILITARY NURSES

All active and retired military nurses, and nursing students who plan to enter the military, are invited to join. You'll enjoy:

\$3M+

in grants to apply for

100+

nursing contact hours

7

leading edge courses

Networking
in-person and online across services

Mentors & Contacts
to advance your military career

Opportunities
to grow Leadership and research skills

Resources
to develop Evidence-Based Practice

Connections, Collaboration & Mentoring

Research Interest Groups (RIGs) are supportive "think tanks" for nursing innovation. Join to share ideas, find or be a mentor, participate in research, and learn from colleagues.

- Anesthesia
- Biobehavioral Health
- Expeditionary Care
- Health System/Informatics
- Military Family
- Military Women's Health

YOU'RE INVITED!

ANESTHESIA Research Interest Group

ABOUT

ARIG members improve the readiness of healthcare providers in operational settings and advance the quality of anesthetic and resuscitative care provided to wounded warriors and their beneficiaries.

This community:

- Generates military anesthesia-based research to influence policy and program development, and creates an evidence database for all services.
- Identifies gaps in military anesthesia research and provides opportunities for evidence-based research grants for military and affiliated civilian nurse anesthetists and scientists.
- Supports Evidence-Based Practice (EBP) and decision-making to increase military anesthesia readiness and optimize the healthcare and well-being of the military anesthesia provider.
- Forms collaborations and partnerships with fellow RIGs, and military and civilian organizations interested in military anesthesia research.

BENEFITS FOR CRNAS

Leading Edge

continuing education courses with contact hours

Leadership Opportunities

to grow leadership and research skills

Research & EBP

opportunities to collaborate

Online Gatherings

to network with colleagues across services
